

## BACK IN TOWN

Que porquería no lo puedes creer Los pelotudos vuelven otra vez Y ahora somos menos Y eso es cada vez peor Solo esperá a que termine la canción Seguimos siempre con el 666 Para tu hermana y para vos también Que nunca acabe la fiesta De los Hijos de Satán Y por ahora no nos fue tan mal Mientras tanto, lejos en la radio Otro imbécil se hace millonario Chupando birras en el mostrador Abriendo bolsas en el guatercló Peor que Maradona Y mejor que Tommy Lee Viejos y verdes sin poder dormir Estamos duros como Robocop En media hora la cosa se terminó Vinimos a patear culos Y quien va a decir que no Cerrá la boca que esto se pone mejor Mientras tanto, lejos en la radio Nadie se va a enterar Siempre igual, lo peor Putas, merca y rock and roll Hay que sangrar una vez mas Dame la guita Y anda a cagar Volvió Satán Wanna hear you said yeah Allright We're back we're back Back in town Tonight

## LIFE IN HELL

Wake up early Go work late Eat trash, baby All day it's rage People talking So much around I wanna shut'em But damn I don't know how My daughter's a bitch My wife is a whore My son's on drugs My boss is a roach Telephone is ringing T.V. is for dumbs I'm getting older May I go to the bar I gotta get away Must be a place aaahh I gotta get away But I don't know where aaahh I gotta get away Cause I can't stand it This is life in Hell I sit alone on my everyday seat And I smoke more than 20 cigarettes I sinking myself in a drink And I can't get away And when I come to the bar And when I'm so fuckin' drunk And when I'm so fuckin' drunk I know that I'm a man

## GOODBYE MOTHERFUCKER

Big bad man, acting like a kid So what you try to prove? Only lies, don't you realize You always gonna lose So got the joke? This is rock and roll And there is no money I don't care, man, I don't care Can't believe you nothing You're too young to die Too old to rock Motherfucker Seven years, now you got fear So what you gonna do? Runaway, trying to escape So what you gonna do? So got the joke? This is rock and roll And there is no money Shame on you, man, shame on you Now you're less than nothing You're too young to die Too

old to rock Motherfucker Bye bye bye Goodbye motherfucker I'm gonna see you See you in hell

#### DRUG ME

Wanna start a riot? Ride on, ride on Wanna start a riot? Yeah! Tonight the moon is full And the heat is on the air Tonight the blood is cold And my eyes are turning red Down on the street I feel alive Down on the street I'm gonna die Looking for my, for my For my piece of mind Drug me now Take me far away Out of my mind Take me faster Drug me now Take me far away Out of my mind Beat me harder I hear the rumble of the world falling down It's there a nuclear war or it's just my heart? Down on the street nobody dares Out on the streets nobody cares Looking for my, for my My narcotic thrill Out of my mind Out of my way Riddin' tonight

#### SCORPIO

Yeah! Scorpio! I'm a man, I'm a beast Lucifer lies on my fist Cause I'm evil, evil I don't know how I only know that I can't sleep tonight, yeah Wicked as the Devil Here I am, I'm up on the roof Death lies on the swimmin' pool Cause I'm evil, evil Don't know why Got you now on my telescopic sight, yeah Evil as the Devil With my gun, we want blood Gonna die, on the bus You're a hero? I'm a man Gonna pull the trigger if you try to runaway, yeah Wicked as the Devil It is a dream or it is for real? Body burnin' all the childrens screams And I shoot'em, I shoot'em They don't wanna die Oh Lord it's the end of the line, yeah Wicked as the Devil Scorpio Wicked as the Devil
